Coverage: 8 face feet/ton

NATURAL STONE LEDGEROCK

This earth-toned sandstone features a stunning mix of buff tans with dark black and brown hues, creating exceptional depth and character. With heights ranging from 10" to 14", depths of 14" to 20", and lengths of 36" to 72", these blocky, linear boulders are both versatile and visually appealing. The very flat tops and bottoms make them perfect for stacking large boulder retaining walls, offering stability and a distinctive natural look.

Delivery Options:
Palletized via Straight Truck with Moffett or Semi-Truck
