COBBLES & BEACH PEBBLES

Glacial Granite Cobbles are oversized, smooth-textured river rocks showcasing a blend of blue, gray, green, brown, pink, and red hues. Their larger size makes them an excellent choice for dry creek beds, water features, erosion control, and decorative garden accents. Additionally, these cobbles can be utilized for natural edging, creating defined borders for landscape beds and pathways. Their durability and organic aesthetic enhance both residential and commercial outdoor spaces.

Delivery Options:
Palletized via Straight Truck with Moffett or Semi-Truck
