Green Stone is your full-service stone yard with a wide variety of patio stone, retaining wall stone, decorative gravel, boulders, soil products, and much more. We can help you choose the right products — and the right quantities — for your outdoor landscape or architectural project.

GREENSTONE

ARCHITECTURAL | LANDSCAPE SUPPLY

GREEN STONE’S PROMISE

In this industry, landscape companies don’t know which truck will start in the morning, the number of employees that will show up to work, what machine will decide to give them problems in the field, what homeowner will make changes overnight, how the weather will affect the schedule.

So many variables to manage and expectations to meet! Green Stone will not be a variable in your day, but a **CONSTANT**.

We will strive to have your high-quality material in-stock, you will get what you ordered, it will be delivered on-site when you need it, we will communicate when issues arise, we will share our knowledge and be that one **CONSTANT** you do not need to think about during your busy day.

DECORATIVE GRAVELS

Decorative gravel has become a popular choice for landscape designers and homeowners. Not only does decorative gravel add a visually appealing element to a property's landscape, but its low maintenance features and sustainability benefits have kept this stone product in high demand. We have multiple stone types, textures, and colors in stock for your stone mulch planting beds, pathways, drainage areas, dry creek beds, or rock gardens. Delivery is available in bulk loads (single axle or tri-axle) or in a conveniently palletized super sack.

Excellent customer service, huge selection of stone. We roamed around for an hour and still didn't see everything. Great value! Highly recommend!

~ Carson R.

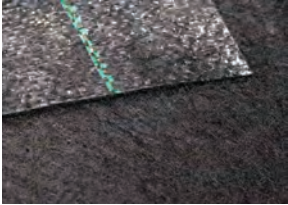

GEOTEXTILES & FABRICS

Industry professionals consider SRW's General Landscape Fabric (spunbond) to be a favorite due to its strength and versatility. This fabric is easy-to-cut and tear-resistant. SRW's Premium Landscape Fabrics are double-sided to help stabilize soil and retain moisture for plant health. The permeability of the Premium Landscape Fabrics are perfect for french drains and also excellent in creating a weed control barrier underneath landscape beds, gardens, planters, decks, patios, and sidewalks. SRW's Geotextile Woven Fabric is highly recommended for stabilization under paver projects and as a base reinforcement under driveways.

BOULDERS & LEDGEROCK

Landscape boulders and ledgerrock add an unique aesthetic element to any landscaping project. Create focal points with character boulders that are uniquely shaped and covered with moss and lichen. Build epic retaining walls or functional seating areas with flat, blocky ledgerrock. Utilize colorful, round glacial boulders to hold back terraced hillsides or to shape custom waterfalls. Sourced from around the country, our vast inventory of boulders and ledgerrock allows the flexibility of landscape design to connect with a home's unique natural surroundings.

GREENSTONE
ARCHITECTURAL | LANDSCAPE SUPPLY

Indiana Limestone has a warm neutral color and ages gracefully, making this stone an ideal choice for coping and caps. Easily manipulated on-site, Indiana Limestone can be snapped or sawn to any length needed and quickly touched up using a brick hammer or sandpaper. Over the last century, Masons and Hardscapers have preferred Indiana Limestone over any other natural stone or concrete product. Green Stone offers Variegated and Non-Variegated Indiana Limestone in either rocked-faced or sawn-faced profiles.

4' x 8' x 2 1/4" Slabs
IL-NV-SLAB-2_1/4

FLAGSTONE & STEPPERS

Flagstone is an irregular-shaped, flat, natural stone that is ideal for walkways and patios. The interesting shape of the flagstone allows pieces to be uniquely placed together to achieve either a rustic or modern landscape design. Elevate the ambiance of your outdoor space with Green Stone's Flagstone & Stepper options.

NATURAL STONE SLABS

Natural stone slabs are oversized pieces of flagstone that allow for fewer joints when laid. Slabs give patios and walkways a natural look as they come in rich shades of tan, brown, gray, or blue. Perfectly imperfect, the uniqueness of each stone slab means that your hardscape patio or walkway will be yours alone.

NATURAL STONE EDGING

Natural stone edgers are best for edging stone walkways and stone patios. They are perfect for edging landscape planting beds. Using stones around your gardens will help highlight the most beautiful areas of your landscape. Natural Stone edging retains mulch and decorative gravel in the planting beds. Edgers also create the perfect barrier between the lawn and planting beds, which eliminates the need for trimming.

“

Had a great experience at Green Stone today. They were very knowledgeable, as well as patient with us, as we decided what stone would work best for us.
